- Teamwork
- Communication

About Me

Aspiring IT professional currently pursuing a B.Tech in Information Technology at Francis Xavier Engineering College. Passionate about web development with hands-on experience in creating web applications using HTML,CSS and Java script Recently completed an internship at Eval Benches Technology, gaining practical skills in web development. Seeking opportunities to further enhance technical skills and contribute to innovative projects.

Projects

Weather Website

Developed a weather forecasting website using HTML, CSS, and JavaScript. Integrated a third-party API to fetch and display real-time weather data based on user location.

Doctor's Prescription to Text Converter

Implemented a project using Google Colab that converts a doctor's handwritten prescription into digital text. The tool also identifies the corresponding medication available on an online pharmacy website. Leveraged Python and machine learning techniques to accurately recognize and process handwritten text.

Portfolio Website

Developed a personal portfolio website using HTML, CSS, and JavaScript to showcase projects, skills, and professional experience. The website features a clean, responsive design and interactive elements to enhance user engagement.

Professional Experience

Web Development Interne

Eval Benches Technology

Designed and developed responsive web pages using HTML, CSS, and Webflow. Collaborated with senior developers to implement features and troubleshoot issues. Enhanced website performance and user experience through optimization techniques.

Achievements

Successfully completed a 1-month internship at Eval Benches Technology, contributing to the development of key features for live web projects.
